Make your business fly!

You want your products to excel in efficiency and performance? Then why don't you tap our expertise.

MTU Aero Solutions provides you with access to valuable expert knowledge accumulated in aviation work. Highly-qualified MTU engineers have for decades been developing technologies and processes acclaimed to be state-of-the-art in the industry. We are transitioning these solutions into industrial gas turbine applications in a flexible and focused manner.

Partnering with MTU Aero Solutions affords many advantages: whatever we develop is subjected to rigorous test, inspection and certification processes. Rest assured that our applications boast top-notch quality and safety without any additional development costs to be incurred by you.

No matter how flexible its applications may be, MTU Aero Solutions assures you of maximum predictability in your planning. Our many years of experience enable us to offer delivery dates we are sure to keep. You can count on us.

MTU Aero Solutions' integrated approach results in one-stop solutions. This means you have a single point of contact you can access anytime you need it.

MTU Aero Solutions is a brand of MTU Aero Engines, Germany's leading engine manufacturer. Our name stands for excellence in technology, reliability and service. Give us a try.
