

We propel your business!

We propel your business!

Being a brand of MTU Aero Engines, MTU Aero Solutions can draw on nearly 100 years of aircraft engine background. MTU is Germany's leading engine manufacturer and ranks among the global players in the industry.

Our comprehensive line of metal processing techniques includes machining as well as joining processes, coating technologies and chemical processes. We shall also be glad to assist in engineering design and validation.

Whatever your particular challenges may be: we are your partner.

Typical products for the rotating parts are:

- Fans
- Disks
- Blisks
- Rotor drums
- Seals
- Shafts
- Blades

Typical products for the static parts are:

- Vanes
- Seals
- Fairings
- Panels
- Cases

Typical other applications are:

- Fixtures
- Highly sophisticated gages
- Customer-designed products in typical alloys
