
Jürgen M. Geißinger named to the supervisory board of MTU Aero Engines Holding AG

- **Oliver Haarmann stepped aside**

Munich – Upon a proposal by the holding, the Munich register court has named Dr. Jürgen M. Geißinger, President and CEO of INA-Holding Schaeffler KG, Herzogenaurach, Germany, to the supervisory board of MTU Aero Engines Holding AG, effective October 4, 2005.

Geißinger replaces Oliver Haarmann, Kohlberg Kravis Roberts & Co Ltd, who retired from the board as of October 1, 2005. The move comes in view of the change in MTU Aero Engines' ownership structure in the wake of the company's IPO.

MTU Aero Engines, with its about 6,800 employees, is Germany's leading engine manufacturer and the world's largest independent provider of commercial engine maintenance services. The company has established leading positions in engine technology worldwide and closely cooperates with the world's major engine manufacturers.

Munich, October 12, 2005
