
MTU: Orders for 218 V2500 engines received in April

Munich, April 21, 2008 – MTU Aero Engines in April recorded an unusually high volume of orders under its V2500 program stake: its share in the 218-engine deals amounts to 185 million U.S. dollars, or about 117 million euros at current rates of exchange. The engines power Airbus A320 jetliners to be delivered primarily to US Airways, Hainan Airlines and British Airways in the years ahead.

MTU has an 11 percent role in the V2500 engine consortium IAE (International Aero Engines).

MTU Aero Engines is Germany's leading engine manufacturer. Taken across its affiliates, it has some 7,100 employees. Having carved out leading positions in engine technology, the company excels in low-pressure turbines, high-pressure compressors, engine control units, as well as manufacturing and repair techniques. In fiscal 2007, MTU posted very nearly 2.6 billion euros in sales.
