# Capability List (Maintenance)

MTU Maintenance Berlin-Brandenburg GmbH
Dr. Ernst-Zimmermann-Str. 2
14974 Ludwigsfelde
Germany

**EASA MRO.:** **DE.145.0003**
**FAA Rep. St.:** **MT7Y352J**
**ANAC Rep. St.:** **2111-03/ANAC**

This Capability List is also valid for all other national approvals, **excluding CAA-UK and CAAC**, to the extent of the limitation described in the Scope of Work of the respective approved supplement.

Doc.-No: MTU-L-007
Revision: 48
Date: January 28, 2026
First issue: Original, June 24, 1998 (is retained by MTU-BB indefinitely)

Table of contents: **Components/Subassembly/Piece Parts** Pages: A4 - A1224
The procedure for the control, use and revision of MTU-BB approved Capability List is described in procedural instruction OPB 08-08.

Editor: Udo Krause (MBQS)

Approved: J. Trimmel
Director Quality Management

Approved:
LBA

Hinweise:
*Note:*

- wenn eine Komponente oder Baugruppe in der Capabilty List (CL) als Module in der Spalte "natur of entry" aufgeführt ist, so besteht kein Bedarf die Einzelteile/Assies der Baugruppe separat aufzulisten.
*- If a component or assembly is listed as a module in the Capability List (CL) under the "nature of entry" column, there is no need to list the individual parts/assemblies of the assembly separately.*
- MTU-BB muss die angemessene Ausrüstung, Personal, Material und Technische Dokumentation haben, um jeden Artikel, der in der CL gelistet ist, instandzuhalten. Wenn MTU-BB nicht die Möglichkeit zur Instandhaltung von Einzelteilen der Komponenten und Baugruppen oder diesbezügliche Arbeitsschritte hat, muß die MTU-BB solche Teile an zugelassene Fremdfirmen schicken.
*- MTU-BB must have the proper equipment, personnel, materials and technical data to maintain each article listed in the CL. If MTU-BB has not the capabilty to maintain individual parts or work steps contained in that component or subassembly, MTU-BB should send those parts to approved contracted outside vendors.*
- X-XX oder XX im ATA-Code bedeutet eine beliebige Zahlenkombination mit der Einschränkung, daß sich daraus ein zulässiger ATA-Code entsprechend den zugelassenen Instandhaltungsunterlagen (Manual, IPC) ergibt.
*- X-XX or XX in the ATA-Code means any number combination with the re-striction that this combination results to a valid ATA-Code relevant to the approved maintenance Dat* a.
- Definition "Overhaul":
"Die Wiederherstellung des Sollzustandes eines gebrauchten Artikels durch Inspektion, Tests und Austausch in Übereinstimmung mit einer genehmigten Norm, zur Verlängerung der Betriebszeit"
*"The restauration of a used item by inspection, test and replacement in conformity with an approved standard to extend the operational life."*
